THE FIE

Today, the FIE has 150 member federations and its head office is in Lausanne (SUI), the Olympic Capital.

At the FIE Elective Congress held in Moscow (RUS) in December 2012, Mr Alisher Usmanov (RUS) was re-elected as President to lead the federation until 2016.

He has been the FIE President since 2008. Mr Usmanov appointed Mr Frederic Pietruszka (FRA) as Secretary General and Mr Jacek Bierkowski (POL) as Secretary Treasurer. The major objectives of the FIE 2012-2016 are

- To actively promote the development of fencing throughout the world.
- To establish fencing as a global sport and media product.

The means to reach this aim is to continue giving financial and organisational assistance to confederations and national federations. The FIE conducts and finances administration courses, coaches training courses, athletes training camps and distributes equipment. In addition, the FIE continues to enhance the visual appeal of the sport and to make fencing more accessible to a broader audience.

FIE GOVERNANCE

The FIE is governed by the FIE Executive Committee which is composed of 21 members. 16 members including the President are elected by the FIE Electoral Congress which takes place every four years. The FIE statutes provide that they all have to be of different nationalities and that at least 20% of the members be women. The President of each of the five continental Confederations recognised by the FIE is also full member of the Executive Committee.

EDITORIAL

Alisher Usmanov,
FIE President

Ladies and gentlemen,

On behalf of the International Fencing Federation, I would like to welcome you to Moscow for the World Fencing Championships.

This is the main tournament of the year, bringing together the best fencers in the world.

I have no doubt that the championships will be a sporting celebration for all of the fans. We will witness spectacular and entertaining duels.

The Russian capital is a city with great history and rich sporting traditions.

Moscow has hosted international tournaments at all levels – from the Olympics and World Youth Games to the world championships in a range of sports, including the 1966 World Fencing Championships.

Fencing is one of the original sports of the Olympic movement, existing from the very beginning.

The International Fencing Federation pays considerable attention to increasing the appeal of the sport and improving access.

I can confidently say that a lot has already been done and we have made remarkable progress.

This has enabled athletes, media, and, above all, fans to enjoy tournaments at the highest level.

A lot of work has gone into staging the 2015 World Championships and I am sure that it will be a success.

I would like to express my sincere thanks to the Ministry of Sport of the Russian Federation, the Moscow city authorities and the Russian Fencing Federation for their substantial contribution to the organisation of this sporting event.

I am grateful to all of the athletes, coaches, referees and volunteers for their dedication to our sport.

I wish all of the competitors and tournament organisers the best of luck.

May the best athlete win!

THE CITY OF MOSCOW – THE VENUE

RUSSIAN FEDERATION

- 146.1 million populations
- Covers 1/7 of the Earth's inhabited land area, 10 times zones
- 200 nationalities, 13 cities with the population over 1 million

FACTS ABOUT MOSCOW

- First mentioned in the chronicles in 1147
- Population is over 12 million
- Moscow serves as the reference point for the time zone used in most of Central Russia, including Saint Petersburg. Moscow Standard Time is CET + 2
- Moscow's spirit is in unique architecture, rich culture, love for sports, lots of entertainment and nightlife
- Main sights: Red Square, St.Basil's Cathedral, the Kremlin, the Tretyakov Picture Gallery, The Museum of Fine Arts, the Bolshoi Theatre
- 4 million tourists from all over the world visit Moscow annually. The city hosts more than 800 business events, forums, exhibitions, congresses and many cultural, sports and entertainment events every year
- 192 museums, 63 universities and 19 academies
- 4 million tourists from all over the world visit Moscow annually
- The city hosts more than 800 business events, forums, exhibitions, congresses and many cultural, sports and entertainment events every year.

SPORT COMPLEX "OLYMPIC"

"Olympic" - a unique multifunctional sports and entertainment facility in Russia, which is considered the landmark of Moscow. It was built for the XXII Moscow Olympic Games in 1980 and it was on July 19 - the opening day of the Olympic Games in the capital - became the official birthday of the complex. "Olympic" is composed of two main buildings - the stadium and swimming pool. Since the construction of the present day "Olympic" is the largest indoor sports facility in Europe, and at the opening he had no equal in the world. "Olympic" - the only sports and entertainment complex of this magnitude, located in close proximity to the historical center of Moscow (near the metro station "Prospect Mira"). The central arena of "Olympic" contains more than 30 000 spectators. It has the dimensions of a standard football field. Its distinguishing feature is the possibility of separating the room into two autonomous parts, in which activities can be carried out simultaneously. In the central scene SC "Olympic" concerts the most popular performers of the world and Russia, festivals, sports tournaments (including winter sports), concert and circus performances, exhibitions, corporate events, scientific conferences, as well as events in the format of a concert Hall "North" with a restaurant area. Pool sports complex "Olympic" meets all standards for international competitions. It includes training bath length of 50 m, a demonstration bath 50 m long and hopping bath length of 25 m and a depth of 6 m. The swimming pool SC "Olympic" competitions, as well as theater performances.

	Men's foil team	12h15	DE of T8, semi finals, final		III place 16h20 I place 18h55

THE RULES

INDIVIDUAL EVENTS

DURATION AND SCORING:

At foil and epee, all bouts in the individual events consist of three periods of three minutes, with one minute between periods, or the bout lasts until one fencer has scored 15 hits. If the third period is completed before either fencer has scored 15 hits, the fencer with the most hits is declared the winner. If the scores are tied after the third period, there is a further one minute of fencing time. One fencer is randomly given priority.

The winner is the first fencer who scores a valid hit; if no hits are scored, the winner is the fencer with priority.

In sabre, there is a one-minute break after one fencer has scored eight hits. After this break, the bout is resumed until one fencer has scored 15 hits.

TEAM EVENTS

DURATION AND SCORING:

In the team events, each match consists of nine bouts of three minutes each, to a maximum of 45 hits. Each bout lasts three minutes, or until one team's score has reached the next multiple of five hits: a score of 5 hits after the first bout, a score of 10 hits after the second bout, a score of 15 hits after the third bout, and so on. If in the ninth bout the time elapses before either team has scored 45 hits, the team with the most hits is declared winner.

If the score is tied after the ninth bout, there is a further one minute of fencing time. One team is randomly given priority. The winner is the first team who scores a valid hit; if no hits are scored, the winning is the team with priority.

THE THREE WEAPONS

FOIL

The foil has a total length of 110cm and its blade is 90cm long.

The total weight of the weapon must be less than 500g.

The foil is a thrusting weapon only. Fencers can only score a hit by striking the point of their weapon on the defined target area of their opponent which is limited to the torso only. Non-valid hits also stop the bout, but are not counted. Foil is governed by the rules of right of way. The fencer who starts an attack has the right of way. In order to avoid being hit, the opposing foil fencer usually attempts to parry the attack and, if this is successful, riposte. To avoid being parried, the attacker may use several tactics, such as disengages or coupes, which are different ways to avoid the opponents' blade.

EPEE

The epee has a total length of 110cm and its blade is 90cm long.

The total weight of the weapon must be less than 770g. As foil, the epee is a thrusting weapon only and the epee attack is with the point of the weapon only.

At epee, the target area is the entire body, head to toe, including any clothing and equipment. Unlike in sabre and foil, in epee there are no right of way rules regarding attacks. Any hit which arrives is counted. Touches are awarded solely on the basis of which fencer makes a touch first, according to an electrical recording apparatus.

Also, double-touches are allowed in epee, although the touches must occur within 40 milliseconds (1/25 of a second) of each other.

SABRE

The sabre has a total length of 105cm and its blade is 88cm long.

The total weight of the weapon must be less than 500g. The sabre's basic difference from the two other weapons is that a hit can be made with the cutting edge and not only with the point. The target area consists of everything above the waist, including the head and both arms.

As foil, sabre is governed by the rules of right of way. The fencer who starts an attack has the right of way.

In order to avoid being hit, the opposing sabre fencer usually attempts to parry the attack and, if this is successful, riposte. To avoid being parried, the attacker may use several tactics, such as disengages or coupes, which are different ways to avoid the opponents' blade.

COMPETITION FORMULA

INDIVIDUALS

Qualification: The 16 fencers participating in the competition who are ranked highest in the current FIE ranking are exempt from the preliminary phase and enter directly the main 64 direct elimination table (DE). The competition starts with a qualifying pool (round-robin) of six or seven fencers. The results from the pools are used to establish the seeds for the next part of the competition.

A pool bout ends when one of the fencers has scored five hits or when three minutes of effective fencing time have passed. Then fencer with the higher score is declared winner. If the score is tied after three minutes, there is given one minute extra time. One fencer will be randomly given priority. The winner will be the first fencer to score a valid hit. If no hits are scored, the winner is the fencer with priority.

After the pool stage, the 16 best seeded fencers enter directly into the main 64 DE. The rest is seeded into preliminary DE from which another 32 fencers qualify for the main 64 DE.

DIRECT ELIMINATION

At foil and epee, all bouts in the individual events consist of three periods of three minutes, with a one-minute break between periods, or until one fencer has scored 15 hits. If the third period is completed before either fencer has scored 15 hits, the fencer with the most hits is declared the winner. At sabre, if one fencer has scored eight hits, there is a one minute break.

Medals: There is no match for the bronze medal. The two fencers who lose the semi-final matches are placed equally third and are both awarded with the bronze medal.

TEAMS

In team events, all teams are directly seeded into the direct elimination table according to the team world ranking position.

Each match consists of nine bouts to a maximum of 45 hits. Each bout lasts three minutes, or until one team's score has reached the next multiple of five hits: a score of five hits after the first bout, a score of 10 hits after the second bout, a score of 15 hits after the third bout, and so on. If the ninth bout is completed before either team has scored 45 hits, the team with the most hits is declared the winner. If the scores are tied after the ninth bout, there is a further one minute of fencing time. One fencer is randomly given priority. The winner is the first fencer to score a valid hit; if no hits are scored, the winner is the fencer with priority.

Medals: There is a match for the bronze medal.

REFEREEING

Fencers may ask for a review of a decision by video-refereeing.

Appeals:

- In individual events each fencer has two possible appeals in direct elimination bouts and one in a pool bout.

Should the referee agree with fencer who appealed for video-refereeing, the fencer retains his right of appeal.

- In team events, the fencers have the right to a single appeal for video-refereeing per relay and are entitled to retain this right should the referee agree with this appeal.

- In case of an appeal for video-refereeing, the referee walks over to the video-consultant. They watch the video together and after consultation with the consultant delegate, the referee gives his final decision. No

other review of the same action can be requested.

- If the fencer's scores are equal at the end of the match, for the decisive hit, the referee must use the video refereeing.

- The video-consultant may at any time request that the referee review his decision.
